Partnership title	Partnership summary	Partners	3GF relationship	Further information & contact
2030 Water Resources Management	A platform to engage in fact-based, analytical approaches and coalition building initiatives that help governments catalyse sustainable water sector transformations.	Lead: International Finance Corporation (IFC) Partners: Governments of Jordan, Mexico, Mongolia, South Africa, National Planning Commission of India, State Government of Karnataka, IADB, SDC, SIDA, USAID, World Bank, Nestle, PepsiCo Inc., SABMiller plc, Coca-Cola, WWF, 3GI and WEF	3GF 2011 Summit 3GF 2012 Summit 3GF 2013 Summit 3GF 2014 Summit 3GF 2015 Africa 3GF 2016 Summit	Anders Berntell, Executive Director, 2030 WRG, IFC, ABerntell@ifc.org www.2030wrg.org
African Forest Landscape Restoration Initiative (AFR100)	A country-led effort to bring 100 million hectares of land in Africa into restoration by 2030.	Lead: World Resources Institute (WRI) Partners: under identification	3GF 2014 Summit 3GF 2015 Africa 3GF 2016 Summit	Sean de Witt, Director, Global Restoration Initiative, Sean.Dewitt@wri.org http://www.wri.org/our-work/project/global-restoration-initiative
Innovation and New Business Models for Sustainable Lifestyles	Aims to enable sustainable lifestyles through testing and upscaling new business models with a focus on public-private partnerships at country level.	Lead: Collaborating Centre on Sustainable Consumption and Production (CSCP) Partners: IKEA, Phillips, WBCSD and others to be identified.	3GF 2014 Summit 3GF 2015 Africa 3GF 2015 Asia 3GF 2016 Summit	Michael Kuhndt, Director, CSCP, michael.kuhndt@scp-centre.org www.scp-centre.org
Building Efficiency Accelerator	An international multi-stakeholder partnership devoted to helping cities and sub-national governments speed up implementation of best-practice policies and efficiency projects in buildings.	Lead: World Resources Institute (WRI) Partners: Sustainable Energy for All (SE4ALL), Global Partnership for Energy-Efficient Buildings and various governments and businesses	3GF 2014 Summit 3GF 2015 LAC 3GF 2016 Summit	Jennifer Layke, Director, Building Efficiency Initiative, WRI, jlayke@wri.org http://www.wri.org/our-work/project/building-efficiency-initiative/history#project-tabs
Food Loss and Waste Protocol	Multi stakeholder process to develop the global standard for measuring food loss and waste in a consistent, credible and transparent manner.	Lead: World Resources Institute (WRI) Partners: FAO, UNEP, CGF, WBCSD, Fusions, WRAP	3GF 2012 Summit 3GF 2013 Summit 3GF 2014 marketplace 3GF 2015 Africa 3GF 2016 Summit	Craig Hanson, Global Director of Food, Forests & Water, WRI, CHanson@wri.org http://www.wri.org/our-work/project/foodloss-
Global Forest Watch	A near real-time forest monitoring system that unites satellite technology, data sharing, and human networks around the world to fight deforestation.	Lead: World Resources Institute (WRI) Partners include: Google, Esri, Digital Globe, University of Maryland, Center for Global Development, USA, Norway, UK governments.	3GF 2013 Summit 3GF 2014 marketplace 3GF 2015 LAC 3GF 2016 Summit	Crystal Davis, Director, Global Forest Watch, WRI, cdavis@wri.org www.globalforestwatch.org/
Green Bonds for Water (<i>scoping</i>)	Aims to promote more sustainable water management approaches through qualifying project standards for "green" water bonds.	Lead: World Resources Institute (WRI) Partners: under identification	3GF 2014 Summit	Betsy Otto, Director, Global Water Program, WRI, botto@wri.org

Partnership title	Partnership summary	Partners	3GF relationship	Further information & contact
Green Commodities Programme	Seeks to improve the national economic, social and environmental performance of targeted agricultural commodity sectors at the national government level, in parallel with the national development priorities.	Lead: UNDP Partners: various partners in different commodities including IKEA and Mondelez International, UN-REDD Programme, the Global Environment Facility and the Swiss State Secretariat for Economic Affairs	3GF 2016 Summit	Kathleen Bottriell, Senior Programme Advisor, kathleen.bottriell@undp.org
Grid Integration (scoping)	A public and private network, to overcome challenges in integrating renewable energy into the grid, at speed and at scale.	Lead: World Resources Institute (WRI) Partners: ABENGOA SOLAR, INTERCHILE, First Solar, Instituto de Investigaciones Eléctricas, Andritz Chile Ltd, Vestas	3GF 2015 LAC	Walter Vegara, Senior Fellow, WRI, Wvergara@wri.org
Industrial Symbiosis	Brings together companies from different sectors to raise awareness of industrial symbiosis and identify business opportunities and avoid waste in a circular economy.	Lead: International Synergies Partners: include German Development Organization (GIZ), Plastics Europe, Birmingham City Council, Western Cape Government, South Africa and Mexican Governments.	3GF 2013 Summit 3GF 2014 marketplace 3GF 2015 Africa	Peter Laybourn, Chief Executive, International Synergies, peter.laybourn@internationalsynergies.com Rachel Lombardi, Director of Business Development, International Synergies Rachel Lombardi, rachel.lombardi@international-synergies.com www.international-synergies.com/
Integrated Waste Management System	Working to unlock value in the waste management and recycling supply chain through demonstration sites, best practice roadmaps and creating an enabling environment.	Lead: Masdar Institute Partners: under identification	3GF 2014 Summit 3GF 2015 Africa 3GF 2016 partnership cafe	Jens Ejbye Schmidt, Professor, Head of iEnergy, Masdar Institute, jschmidt@masdar.ac.ae http://www.masdar.ac.ae
Landscapes for People, Food and Nature Initiative (scoping)	An international collaborative initiative of knowledge sharing, dialogue and action to support integrated landscape management in order to achieve three simultaneous goals: improved food production, ecosystem conservation, and sustainable livelihoods.	Lead: Landscapes for People, Food and Nature Initiative Partners: around 60 partners from international agencies, agricultural organisations and non-governmental organisations		Lee Goss lgross@ecoagriculture.org
Latin American Water Funds Partnership	Working to scale up financing systems designed to support the maintenance of clean water sources, enhance natural ecosystems, and support community economic development.	Lead: The Nature Conservancy (TNC) Partners: various business, governments and NGOs across LAC	3GF 2015 LAC 3GF 2016 Summit	Auerlio Ramos, Director, Northern Tropical Andes Conversation, TNC aramos@TNC.org http://www.nature.org/ourinitiatives/regions/latinamerica/water-funds-of-south-america.xml

Partnership title	Partnership summary	Partners	3GF relationship	Further information & contact
Nordic Initiative for Sustainable Aviation (NISA)	Brings together companies and stakeholders in Nordic countries as a force for good, to promote and develop a more sustainable aviation industry and sustainable aviation fuels.	Lead: NISA Partners: Air Greenland, Atlantic Airways, Finnair, Icelandair, SAS and TUI Fly Nordic, Copenhagen Airports, Finavia, Avinor and Swedavia, IATA, Boeing and Airbus.	3GF 2011 Summit 3GF 2012 Summit 3GF 2014 marketplace	Martin Porsgaard, Director, NISA mpo@cphcleantech.com http://www.cphcleantech.com/nisa
Natural Capital Protocol (NCP)	Aims to provide clear guidance on how businesses can assess their impacts and dependencies on natural capital, and manage these better.	Lead: Natural Capital Coalition Partners: Accenture, ACTS, ARCADIS, The B Team, Carbon Disclosure Standards Board, University of Cambridge Institute for Sustainable Leadership, Conservation International, Deloitte, eCountability, eftec, ERM, EY, FAO, GIST Advisory, IERS, Imperial College London, Integrated Sustainability Services, IUCN, Natural Capital Project, The Nature Conservancy, The Sustainable Fashion Academy, PwC, Sustain Value, Synergiz, Trucost, True Price, WBCSD, World Resources Institute and WWF	3GF 2013 Summit 3GF 2014 Summit 3GF 2016 Summit	Elizabeth White, Chief Strategist Sustainability, Global Economics and Strategy, IFC ewhite1@ifc.org
Partnership for Procurement and Green Growth (PPGG)	Works to move forward the agenda for procurement as a tool for spurring innovation and achieving green growth through technical assistance, advocacy and policy dialogue.	Lead: International Institute for Sustainable Development (IISD) Partners: ecos and Global Energy Basel, EPEAT, International Road Federation, State Government of Sao Paulo, Thomson Reuters, Royal Philips Electronics, Abu Dhabi Sustainability Group, Infrastructure Development Finance Company, Danfoss and Office Depot	3GF 2011 Summit 3GF 2012 Summit 3GF 2013 Summit	Oshani Perera, Director of the Public Procurement and Infrastructure Finance, IISD operera@iisd.org http://www.iisd.org/pgg
Polymers and Packaging in the Circular Economy	Influential cities, reverse logistics companies, fast-moving consumer goods manufacturers and retailers developing a roadmap for plastic packaging in the circular economy.	Lead: Ellen MacArthur Foundation Partners: WEF, McKinsey	3GF 2014 Summit	Rod Opsomer, Ellen MacArthur Foundation Rod.opsomer@ellenmacarthurfoundation.org http://www.ellenmacarthurfoundation.org/blog/project-mainstream
Public Procurement and Eco-Innovation in the Health Sector	Aims to encourage governments to adopt sustainable and green public procurement practices in their health care sectors, potentially through a green protocol.	Lead: UNDP and IISD Partners: under identification	3GF 2014 Summit 3GF 2016 Partnership Cafe	Stine Junge, Partnership Analyst, UNDP stine.junge@undp.org

Partnership title	Partnership summary	Partners	3GF relationship	Further information & contact
Power System Transformation	Enabling the development of reliable, efficient, and affordable electricity systems while minimizing health and climate impacts through best practice and knowledge sharing.	Lead: Danish Ministry for Energy, Utilities and Climate (EFKM) Partners: WRI, CNREC, 21st Century Power Partnership (governments of US, India, Denmark, Germany, Finland and Deutsche Bank, Cisco, IBM, Schneider Electric).	3GF 2012 Summit 3GF 2013 Summit 3GF 2014 Summit 3GF 2016 Summit	Kim Møller Pors, Special Advisor, EFKM kmpor@efkm.dk
Race to the Top	Creating a “race to the top” with a sustainable system of apparel characterized by measurable progress both in environmental performance and the well-being of workers.	Lead: Sustainable Trade Initiative (IDH) Partners: Levi Strauss & Co, Better Work, Sustainable Apparel Coalition, International Finance Corporation	3GF 2014 Summit 3GF 2016 Summit	Monique Lempers, Senior Program Manager IDH Lempers@idhsustainabletrade.com
Scaling Green Off-Grid Energy Solutions	Works to accelerate and scale up off-grid solutions in Africa, providing access to high quality, clean and cost effective electricity systems to those in rural and isolated areas.	Lead: Kenyan Climate Innovation Centre (CIC) Partners: Masdar, Trina Solar, Vestas	3GF 2014 Summit 3GF 2015 Africa 3GF 2016 Partnership Cafe	Edward Mungai, CEO, CIC emungai@kenyacic.org
SETI Alliance	Brings together governments and businesses to work constructively towards green trade liberalization and lowering barriers to trade in clean energy goods and open markets.	Lead: ICTSD Partners: Danish Wind Energy Association, Trinasolar, Suzlon, The European Wind Energy Association, Vestas, Yingli Solar, Candian Solar, Danfoss, Grundfos, Hanwa Solar, K2 Management, SolarClarity.	3GF 2011 Summit 3GF 2012 Summit 3GF 2013 Summit 3GF 2014 marketplace	Peter Brun, Managing Director, SETI Alliance, pbrun@outlook.dk www.seti-alliance.org
Sustainable Infrastructure Registry	A tool to provide investors with a clear understanding of the specific characteristics of sustainable and resilient infrastructure investments.	Lead: Global Infrastructure Basel (GIB) Foundation Partners: under identification	3GF 2014 Summit 3GF 2016 Summit	Daniel Weiner, Founder & President, GIB, daniel.wiener@ecos.ch Katharina Schneider, Deputy Executive Director, GIB, katharina.schneider@ecos.ch http://www.gib-foundation.org/
Phase 2: Urban Water Leakages	Tackles non-revenue water (NRW) and the challenge of water losses and resulting revenue losses in an urbanizing Africa.	Lead: Stockholm International Water Institute (SIWI) Partners: under identification	3GF 2015 Africa 3GF 2016 Summit	Anton Earle, Director of African Regional Centre, SIWI anton.earle@siwi.org
Water Pricing (scoping)	Reduces uncertainty around water pricing for decision makers and to propose ways to remove barriers to appropriate implementation by establishing a multi stakeholder platform on water pricing.	Lead: Stockholm International Water Institute	3GF 2016 Summit	John Joyce, Chief Economist, John.Joyce@siwi.org

3GF touches on numerous partnerships through regional events, the Summits, broader advocacy and outreach. Many of these partnerships participate in the 3GF process but may not have evolved past an initial conversation. Some partnerships may still be at early stages of partnership development or may have already wrapped up. Please find below some examples of such partnerships:

We would be happy to provide you with more information on request.

- **Public Private Partnerships on green financing:** commits to collaborating closely with the UK government Capital Markets Climate Initiative platform, and to communicating lessons, particularly around renewable energy (*3GF 2011*).
- **Electric Vehicle Test Markets:** develops and implements a strategy with framework conditions for an Electric Vehicle test market that addresses issues related to enhancing business and consumer incentives and recharging infrastructure (*3GF 2011*).
- **C40 Cities and Green Growth:** promote best practices to cities around the world on how cities, the private sector and knowledge institutions can work together to attract investments and create jobs while addressing environmental challenges (*3GF 2012*).
- **Energy Efficiency Indicators (Motor Systems):** explores energy efficiency indicators in the area of motor systems to promote the rapid deployment of EE measures and guide effective policy measures (*3GF 2012*).
- **Bio-based Growth:** accelerates a transition to a bio-based economy with the aim of accelerating innovation and research, boosting market uptake and public awareness of bio-based products (*3GF 2012*).
- **Smart Cities:** works with cities and private sector suppliers to accelerate the development and deployment of smart technologies for water (*3GF 2013*).
- **Phase 1: Urban Water Leakages: Learning Network:** aims to scale up water saving solutions in rapidly growing cities through performance based contracts, where technology providers are paid through the savings they create (*3GF 2013*).
- **Innovation to Transform Food Production:** aims to transform how food is produced through a clearing house that analyses best practices and explores opportunities for scale through collaboration, cooperation and prioritization (*3GF 2014*).
- **Biomass Platform:** promotes dialogue between governments, companies and other biomass users and guides the transition to a bio-based economy (*3GF Africa 2015 marketplace*).
- **Mobilising green growth finance:** mobilizes and connects public and private finance to the priorities of green growth by creating a green growth themed private equity fund and a framework for an innovative financing mechanism for green growth (*3GF Summit partnership café, scoping*).
- **SUSTAIN Africa:** facilitates work among communities, businesses, governments, civil society organizations and development partners to achieve sustainable and inclusive green growth, food security and climate resilience (*3GF Africa 2015 marketplace, 3GF Summit partnership cafe*).
- **Sustainable Livestock Initiative:** reconciles production with conservation. A multi-stakeholder approach to greening the intensive livestock system and addressing the challenge of responsible beef production in South America. (*3GF LAC 2015 marketplace*).
- **Urban Water Nexus:** explores opportunities for smarter action around water and energy use by taking a nexus approach and maximizing impact through effective data management. (*3GF 2015 LAC marketplace*).
- **Green growth and liveability cities:** explores how to combine growth and sustainability with more healthy and liveable cities for all people through urban leadership, integrated planning, innovation and impact (*scoping*).
